To Whom It might Concern – Mr. Salah Abumregha

Subject: Reference Letter

Mr. Salah Abumregha have left me a very deep impression for his zeal and earnest in his work, and as his manager in the Supreme Committee for local administration strategies in the Ministry of Local Governance, I will be very glad to write this letter of recommendation.

I find him very sincere and hardworking, intelligent, active and very keen to learn. In addition, he is very kind with his colleagues and subordinates, I requested that he would join this committee as Data analyst communication officer and chief information officer, he leads the teams that handle Media, Documentation, IT, and Statistics Files, after my work with him in the Libyan Ministry of Planning in 2012 when I was the Director of institutional development department, he had and still has a strong ambition to be involved in the work of this committee and he is always known to have bright ideas that would ease workload on others.

In short, Mr. Salah has shown great potential and he is a fast learner. He will surely succeed if he pursues further study. I strongly recommend him and will appreciate your help for his application. Should you need any further information about this promising young leader, please feel free to contact me.

Yours sincerely.

Dr. Bader S. Tomi

Chief of Supreme Committee

Bader
